

KM³
Storagewall

KM³ storage wall divides offices, provides high volume storage and is totally flexible. Once installed, KM³ uses the total vertical space from floor to ceiling height. It can generate a reduction of up to 30% over the original floor plan and consequently reduces the cost of floor space.

Not only is it practical but it has many different styles too, both in configuration and look. There is a comprehensive choice of bay arrangement from sliding doors to audio-visual. This combined with infinite panel finish options provides the ultimate storage solution.

hundreds of materials \times thousands of finishes
 \div a wealth of experience = infinite possibilities

KM³, finished in grey SFC, saves the cost of a building and is used by the client to house both filing and essential services.

Dark veneered KM³ divides offices and accommodates filing to help create a fully working environment.

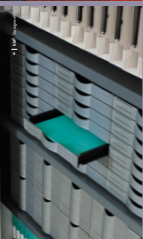

EMF finished in grey MFC originates with Møgelgaard's design.

The diverse uses of EMF are evident in this case: lateral and pull-out filing, shelving, wardrobe, glass display units, parts doors and audio-visual equipment.

- 1 Horizontal (ambidextrous) tray
- 2 Double door tray
- 3 Audio-visual tray
- 4 Bi-fold door tray
- 5 Sliding door tray
- 6 Table-supporting ambidextrous tray

1 Pull-out reference shelf with Ring frames below

2 An extensive range of intervals ensures the efficient use of all available storage space

3 KM¹ with optional full height doors and various Ring configurations

1 Bi-fold door in maple veneer finish

2 Acacia wood top with projector screen, white board and flip chart

3 Side opening lockbox in hi-lack clear finish

7 Two offices divided by a KMP storage island with opposed sliding doors

8 A row of KMP storage lockers

9 KMP project cart docking into storage bay

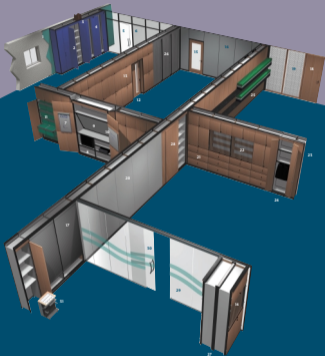

10 Stacked Kambi chairs with pull-out reference shelf and visual storage bin

- 1 KSP® is a special wood sub-finish to complement the furniture and Kanelle mirrored panels.
- 2 Central open-display bays with pull-out filing drawers below. Standard storage bays with double doors are adjacent.
- 3 Recycled varnished KSP® matches the desk and door finish to provide a fully coordinated interior.

All varnishes utilized in the manufacture of KSP® come from sustainable sources where wood cannot be harvested faster than it is replanted.
